

1 DISCOVERING GALLECS

The path of the Bandolers

Leave the church and follow the path of the Bandolers to the viewpoint (125m), from where you can see a large part of the Serralada Prelitoral, Montseny, the cliffs of Bertí, El Farell and La Mola. We continue the route, choosing between two paths (A / B) until we reach the Caganell stream. An easy walk, the last stretch of which is made up of a spectacular plane grove and a riverside forest, where it is easy to see oriolis, tallarols, jays, herons and nightingales.
