## DISCOVERING GALLECS

### Cycle route

This route initially passes through the Can Salvi banana grove and wetlands, the Caganell stream, the Can Torres Forest and the Saint Valerià path. It continues through Can Cònsul, passes in front of the Torre de Malla, and, through the Can Veire wood, returns to its starting point, the church of Santa Maria de Gallecs. Here begins the second part of the itinerary, which follows the path of the Bandolers, passes over the AP-7 motorway to the Pinetons, continues along Can Banús, the passera del passeig dels Castanyers, the pond of Can Benito and, once again passing by the Caganell stream, returns to the church.
